Re: Sprint Nextel's Status Report on 800 MHz Band Reconfiguration
WT Docket 02-55

Dear Mr. Furth:

Sprint Nextel Corporation ("Sprint Nextel") hereby files the attached report regarding the 800 MHz band reconfiguration progress with the Federal Communications Commission ("Commission") and the 800 MHz Transition Administrator, LLC ("TA"). In its September 12, 2007 *Third Memorandum Opinion and Order* in the above-captioned proceeding, the Commission required Sprint Nextel to submit monthly reports regarding its clearing of Channels 1-120 (Phase I) and the Expansion Band and NPSPAC channel block (Phase II).¹ Through the efforts of all parties, substantial progress in 800 MHz band reconfiguration continues.

In Phase I, Sprint Nextel has completed the retuning of all non-Sprint Nextel, non-Southern LINC Channel 1-120 incumbent licensees in fifty-two NPSPAC regions. In the four remaining NPSPAC regions or U.S. Territories in which Channel 1-120 clearing has not been fully completed, all four NPSPAC Regions have only one 1-120 Channel licensee remaining to be retuned. Overall, 99.67 percent of the nearly 1200 Channel 1-120 licensees that must be retuned during Phase I of 800 MHz band reconfiguration have been retuned. *See Figure 1.*

Phase II of 800 MHz band reconfiguration continues to show ongoing progress. Fourteen NPSPAC Regions are now complete.² Over ninety-nine percent of all non-border area public

¹ See *Improving Public Safety Communications in the 800 MHz Band*, Third Memorandum Opinion and Order, WT Docket No. 02-55, at ¶¶ 29-30 (rel. Sep. 12, 2007) ("*Third Memorandum Opinion and Order*").

² All 800 MHz licensees required to be retuned in the West Virginia, Nebraska, Wisconsin, Iowa, Montana, Alaska, Minnesota, North Dakota, Nevada, Utah, Colorado, Hawaii, Wyoming and South Dakota NPSPAC Regions have fully completed 800 MHz band reconfiguration efforts. In addition, all public safety licensees in the Oregon NPSPAC Region have been retuned with the exception of State of Washington facilities that lie across the Oregon border.

Sprint Nextel notes that in some of these Regions, additional licensing work must be completed, as well as administrative efforts to close out their Frequency Reconfiguration

safety licensees who must be retuned (857 of 859 licensees) have signed Frequency Reconfiguration Agreements (“FRAs”) and are at various stages of retuning their systems. Of these licenses who must be retuned, six-hundred and eighty-five (685) of the non-border area public safety licensees (Expansion Band and NPSPAC) have completed retuning to their new channel assignments, an over eighty (80%) completion rate across the country. Of the handful of remaining non-border licensees without FRAs, each have provided Sprint Nextel the cost estimates necessary to negotiate FRAs. All remaining licensees are in the TA-supervised mediation process that should assist the parties in reaching FRAs so that they can move on to retuning their systems.

Taken together for Phase I and Phase II of 800 MHz band reconfiguration, Sprint Nextel notes that it has signed FRAs with 99.9% of the combined Phase I and Phase II non-border incumbent licensees who must be retuned, and has completed 91% of the nation’s retunes (excluding the U.S. - Mexican border areas).

Sprint Nextel separately tracks and provides this progress update on the planning, negotiation and retuning process in the US – Canadian border area which has been on a separate timeline than the non-border U.S. Since the new 800 MHz band plans for U.S. - Canada were adopted in 2008, a significant amount of progress has occurred. Approximately 270 public safety and B/ILT licensees in each of the Canadian border regions received their replacement frequency proposals from the TA or were initially required to be retuned. Over 260 licensees have signed their FRAs, have their FRAs pending at the TA for its review, or have decided not to retune, while less than 10 licensees have yet to sign FRAs, an over 95% negotiation completion rate. Approximately 170 border-area licensees have completed their retuning work or no longer need to retune their facilities (66% completion rate).

In addition, Sprint Nextel has made significant progress in the Puerto Rico/US Virgin Islands NPSPAC Region, which is also on a separate timeline for 800 MHz band reconfiguration. Seven of the eight FRA’s necessary to complete band reconfiguration have been signed, while two retunes are complete.

Starting on March 17, 2008, public safety licensees across all NPSPAC regions were required to file requests for extensions of time or waiver of the Commission’s June 26, 2008 reconfiguration completion deadline if they did not expect to complete their retunes by that date.

Agreements. Additionally, in some Regions, some public safety licensees have completed their physical retuning and are fully operating on their new frequency assignments, however, they still are completing a “second touch” of their radios to remove the “old NPSPAC” frequencies from their radios. From an operational perspective, however, Sprint Nextel considers these Regions complete.

The Bureau acted on nearly 500 requests, waiving the June 26, 2008 deadline for hundreds of NPSPAC licensees.³ On June 9, 2009, the Bureau adopted a new deadline of October 1, 2009 for public safety licensees to complete their rebanding work or to seek additional time.⁴ Over 300 public safety licensees filed updates with the Commission to further clarify their retuning status and need for extensions of time to complete their negotiations and retunes. On March 31, 2010, the Bureau acted on these submissions, granting a further extension to those licensees expecting to finish their retunes by October 1, 2010 and holding in abeyance the requests of those licensees expecting to take until beyond October 1, 2010. The Bureau also imposed reporting requirements for those licensees who failed to file extensions, let their extensions expire without reporting on their retuning status, or have failed to deliver cost estimates or signed FRAs.⁵ In 2010, well over 150 public safety licensees filed updates to their retuning status and have requested further extensions of time to complete their rebanding work. On December

³ *Improving Public Safety Communications in the 800 MHz Band; Requests for Interim Waiver of the June 26, 2008 Rebanding Deadline – Wave 1 Public Safety Regions*, WT Docket No. 02-55, Order, DA 08-1427 (PSHSB rel. June 17, 2008); *Improving Public Safety Communications in the 800 MHz Band; Requests for Waiver of the June 26, 2008 Rebanding Deadline – Wave 1 Public Safety Regions*, WT Docket No. 02-55, Order, DA 08-1428 (PSHSB rel. June 17, 2008); *Improving Public Safety Communications in the 800 MHz Band; Requests for Interim Waiver of the June 26, 2008 Rebanding Deadline – Wave 2 Public Safety Regions*, WT Docket No. 02-55, Order, DA 08-1429 (PSHSB rel. June 17, 2008); *Improving Public Safety Communications in the 800 MHz Band; Requests for Waiver of the June 26, 2008 Rebanding Deadline – Wave 2 Public Safety Regions*, WT Docket No. 02-55, Order, DA 08-1430 (PSHSB rel. June 17, 2008); *Improving Public Safety Communications in the 800 MHz Band; Requests for Interim Waiver of the June 26, 2008 Rebanding Deadline – Wave 3 Public Safety Regions*, WT Docket No. 02-55, Order, DA 08-1431 (PSHSB rel. June 17, 2008); *Improving Public Safety Communications in the 800 MHz Band; Requests for Waiver of the June 26, 2008 Rebanding Deadline – Wave 3 Public Safety Regions*, WT Docket No. 02-55, Order, DA 08-1432 (PSHSB rel. June 17, 2008); *Improving Public Safety Communications in the 800 MHz Band; Requests for Interim Waiver of the June 26, 2008 Rebanding Deadline – Wave 4 Public Safety Regions (Non-Border)*, WT Docket No. 02-55, Order, DA 08-1433 (PSHSB rel. June 17, 2008); *Improving Public Safety Communications in the 800 MHz Band; Requests for Waiver of the June 26, 2008 Rebanding Deadline – Wave 4 Public Safety Regions (Non-Border)*, WT Docket No. 02-55, Order, DA 08-1434 (PSHSB rel. June 17, 2008); *Improving Public Safety Communications in the 800 MHz Band; Requests for Waiver of the June 26, 2008 Rebanding Deadline – National Capital Region*, WT Docket No. 02-55, Order, DA 08-1531 (PSHSB rel. June 30, 2008); *Improving Public Safety Communications in the 800 MHz Band; Requests for Waiver of the June 26, 2008 Rebanding Deadline*, WT Docket No. 02-55, Order, DA 08-1653 (PSHSB rel. July 14, 2008).

⁴ *Improving Public Safety Communications in the 800 MHz Band; Supplemental Requests for Waiver of the June 26, 2008 Rebanding Deadline*, WT Docket No. 02-55, Order, DA 09-1297 (PSHSB rel. June 9, 2009).

⁵ *Improving Public Safety Communications in the 800 MHz Band; Supplemental Requests for Waiver of the June 26, 2008 Rebanding Deadline*, WT Docket No. 02-55, Order, DA 10-574 (PSHSB rel. March 31, 2010).

30, 2010, the Bureau acted upon these requests extending individual rebanding deadlines to as far as March 31, 2011. Public safety licensees failing to complete their retunes by March 2011 were required to provide further updates and request additional time.⁶ On October 3, 2011, the Bureau issued an Order, acting upon these 2011 extension requests and permitting licensees until January 17, 2012 to complete their retunes or provide additional information.⁷

Recognizing that many public safety licensees were not prepared to complete their retunes by June 26, 2008, the Bureau granted Sprint Nextel a waiver to permit it continued access to Channels 1-120 where the Bureau has granted corresponding waivers to give NPSPAC licensees more time to retune to those channels.⁸ Where Sprint Nextel remains on the 1-120 channels, the Bureau required that it clear the required channels for retuning public safety incumbents on 60 days' notice that they are ready to retune, consistent with prior Commission requirements. As listed in Figure 4, 593 Phase II NPSPAC licensees have already established with Sprint Nextel a firm date for starting and completing their physical retuning work and many have, in fact, finished their retunes. Overall, for Phase II and the Canadian Border-Area Sprint Nextel has been notified of and has already or is prepared to timely provide cleared replacement channels for 969 licensees that have made *ad hoc* requests, signed Retuning Schedule Letters ("RSLs") or have participated in TA-sponsored regional planning meetings.⁹ The dates for these retunes are responsive to the requirements of each public safety licensee.¹⁰

⁶ *Improving Public Safety Communications in the 800 MHz Band; Supplemental Requests for Waiver of the June 26, 2008 Rebanding Deadline*, WT Docket No. 02-55, Order, DA 10-2431 (PSHSB rel. December 30, 2010). On April 8, 2011, the Bureau announced deadlines for 800 MHz licensees in the U.S. – Canada border area to file for extensions of time to complete rebanding if they were not completed with their 800 MHz reconfiguration efforts by the April 14, 2011 deadline. See Public Safety and Homeland Security Bureau Provides Guidance for Submission of Requests for Waiver of the April 14, 2011 Deadline for Completion of 800 MHz Rebanding in Regions Along the U.S. – Canada Border, *Public Notice*, DA 11-644 (April 8, 2011). On December 5, 2011, the Bureau acted upon these waivers requests, requiring many licensees to further justify their extensions. *Improving Public Safety Communications in the 800 MHz Band; Requests for Waiver of the April 14, 2011 Rebanding Deadline in Regions Along the U.S. – Canada Border*, WT Docket No. 02-55, Order, DA 11-1965 (PSHSB rel. December 5, 2011).

⁷ *Improving Public Safety Communications in the 800 MHz Band; Supplemental Requests for Waiver of the June 26, 2008 Rebanding Deadline*, WT Docket No. 02-55, Order, DA 11-1662 (PSHSB rel. October 3, 2011).

⁸ *Improving Public Safety Communications in the 800 MHz Band; Sprint Nextel Request for Waiver of June 26, 2008 Rebanding Deadline with Respect to Channels 1-120*, WT Docket No. 02-55, Order, DA 08-1444 (PSHSB rel. June 19, 2008).

⁹ In addition to these 969 licensees who are formally subject to 800 MHz band reconfiguration, Sprint Nextel has also made its channels available to 202 licensees in the new NPSPAC band that were not previously licensed in the old NPSPAC band (and thus, did not require an FRA). Additionally, Sprint Nextel has also made its 800 MHz interleaved spectrum available to more than 226 licensees in the 800 MHz interleaved portion of the band to accommodate new systems and system expansion, pursuant to the FCC Order adopted October

As Figure 3 demonstrates, there continues to be significant progress in transitioning from FRA negotiations to implementation of Phase II NPSPAC retuning.¹¹ In twenty-one NPSPAC regions, Sprint Nextel has completed the clearing of its operations from all of the 1-120 channels (the “new NPSPAC” band) and, pursuant to the FRAs with individual incumbent licensees, has made all of these channels available to NPSPAC licensees to complete their retuning in accordance with their schedules. Sprint Nextel continues to work diligently with all licensees so that they complete their retunes and so that Sprint Nextel receives its replacement spectrum at 866-869 MHz on the spectrum formerly occupied by these retuning licensees. Accordingly, Sprint Nextel has also continued to transition its operations from the 1-120 channels to the “old NPSPAC” band at 866-869 MHz without incident.

Based on this progress, Sprint Nextel also continues to work closely with the 800 MHz TA to verify Sprint Nextel and the public safety’s ongoing progress towards completion of rebanding on a NPSPAC-region-by-NPSPAC-region basis. Verification of this benchmark progress will continue to allow Sprint Nextel to make additional 800 MHz “interleaved” spectrum available to the Commission for relicensing for new systems and system expansion.¹²

2008 that established a staged relinquishment of 800 MHz interleaved spectrum per NPSPAC Region as more and more regions are completed. See footnote 12.

¹⁰ Figure 4 lists the dates that public safety licensees have indicated that they need access to their 800 MHz replacement channels. Some of the listed public safety requests for replacement spectrum are beyond 2012. Sprint Nextel is hopeful that working with all affected stakeholders, the FCC can reduce the time needed for these and other licensees to initiate their retune work.

¹¹ Sprint Nextel was requested to clear additional 1-120 channels for retuning NPSPAC licensees in two NPSPAC Regions during the month of May 2012: Oklahoma, New England and Washington, DC/Baltimore. This is entirely based on the timing requirements dictated by public safety licensees ready to retune their systems.

¹² On October 30, 2008, the Commission waived the June 26, 2008 deadline for Sprint Nextel to vacate its channels in the 800 MHz interleaved, expansion, and guard bands and adopted a phased transition of these channels based on public safety progress towards completion of rebanding. *Improving Public Safety Communications in the 800 MHz Band; Relinquishment by Sprint Nextel of Channels in the Interleaved, Expansion and Guard Bands*, WT Docket No. 02-55, Order, FCC 08-253. On March 31, 2010, the Bureau waived the March 31, 2010 deadline for Sprint Nextel to vacate its channels in the 800 MHz interleaved band in 21 NPSPAC Regions and modified the phased transition process. *Improving Public Safety Communications in the 800 MHz Band; Relinquishment by Sprint Nextel of Channels in the Interleaved, Expansion and Guard Bands*, WT Docket No. 02-55, Order, DA 10-576. On October 28, 2009, the Public Safety and Homeland Security Bureau (“Bureau”) announced that it would begin to accept applications for additional interleaved spectrum made available by Sprint Nextel in specific markets where additional progress has been made. *Public Safety and Homeland Security Bureau Announces Application and Licensing Procedures for Certain Channels Relinquished by Sprint Nextel Corporation in the 809.5 – 815/854.5 – 860 MHz Band*, Public Notice, DA 09-2301 (October 28, 2009).

David Furth, Acting Bureau Chief

June 1, 2012

Page 6

Sprint Nextel appreciates the continuing opportunity to update the Commission on the substantial progress being made in 800 MHz band reconfiguration. We remain available to discuss this Report at the Bureau's convenience. Sprint Nextel remains committed to completing this important initiative; however, as the information contained herein demonstrates, Sprint Nextel cannot complete 800 MHz band reconfiguration until all affected incumbent licensees complete their individual retuning activities.

Should you have any further questions in this matter, please contact the undersigned.

Respectfully submitted

¹³ The City of Miami Beach is the last remaining Phase I licensee remaining in Florida. The City signed its FRA in mid-2007 and should have been completed with its retuning by 2008. Instead the City delayed its retune for years, and decided to choose an alternative 800 MHz vendor in early 2011 to undertake its retuning work. Since agreeing to have its retune performed by their new vendor, the City and their new vendor have repeatedly delayed its retune. It is our understanding that the licensee has again delayed its retune and it may not be completed until the Summer of 2012.

¹⁴ The Parish of Saint John the Baptist is the last remaining Phase I licensee remaining to retune its system in Louisiana.
